

## Announcement of new business name Changing our look to serve you better

To our valued customers,

As you see the new logo on the top of this letter, we are excited to announce that beginning in 2022 we are now doing business as **“Clean Earth Geothermal”**.

The new name reflects our dedication to the geothermal HVAC industry while trying to decrease confusion amongst similar name companies.

Clean Earth Geothermal will continue to operate in its current structure. There has been no change in ownership, staff nor location. Along with this, all contact information including our web address, phone number and e-mail addresses will remain unchanged. We are simply excited for a new “look”, while offering the same great service and products as always.

As we continue to make this transition, you may still see some of our fleet vehicles, employee apparel, or perhaps our staff still referring to us as “H&S”. We *proudly* choose to keep our legal business name of “H&S Welding, Heating, A/C & Geothermal, Inc.” that has built our reputation in the HVAC industry. We remain proud to be a 2<sup>nd</sup> generation company that was rooted to serve your commercial and residential HVAC needs and we will continue to serve our customers with the same devotion and quality which you have come to expect from us since H&S was first founded in 1989.

We look forward to serving you under our new business name,

Jason Salzbrun, President/CEO  
& the entire staff at Clean Earth Geothermal

For an easy reference, please accept this magnetic business card that can be applied directly to your HVAC equipment.
